

Twinning Schools Programme

The Twinning Schools programme was conducted on 1st and 4th February to facilitate a healthy interaction between the students of Government and minority schools. The interaction was focussed towards mutual exchange of ideas, collaborative learning and participation to foster empathy, confidence, and holistic development. St. Mary's School was paired with Gargi Sarvodaya Kanya Vidhyalaya for the interactive session.

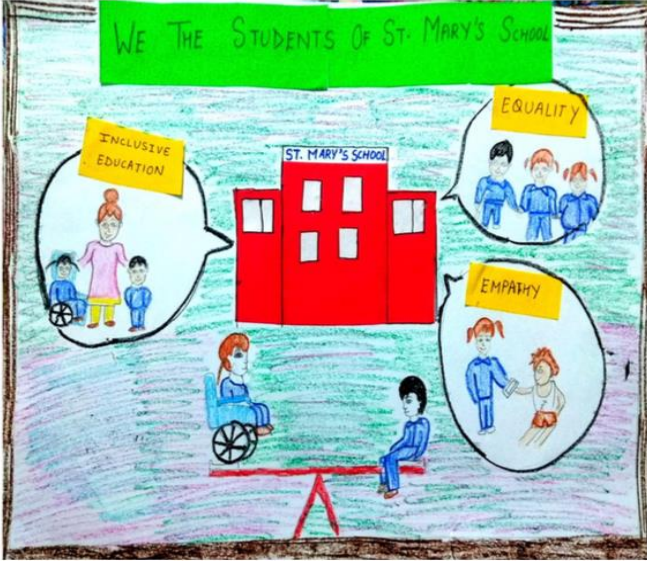

“This twinning school project was an amazing and a curious experience. It provided us with an opportunity to interact with students from the other school and forge a bond of friendship and understanding. We all participated in an art competition to express our feelings about our school that allowed us to understand how other children view their school. It was all about knowing each other and discovering that we are alike despite the differences.” (Varda Arora,6A)

“The Twinning Schools programme gave me a chance to interact with other schools' students and form new friendships. I realised that the students from the other school have been facing difficulties in attending their online classes due to lack of internet connectivity and insufficient number of devices. There was so much to learn from one another and I am glad that I got selected to participate in this cultural exchange. I am looking forward to many such sessions in the future.”
